

Small Stellated Dodecahedron Lampshade

Use a LED light bulb (E12 or E14 screw)
Do not use an incandescent lamp
Do not use a halogen lamp

Incandescent lamps and halogen lamps produce too much heat.

Use:
IKEA HEMMA
Table lamp base for E12 or E14 lamp

Or a similar E12 or E14 lamp base

Instructions:

Part 1:

- cut out and fold
- test whether part 1 fits your lamp base

Parts 1 to 13

- cut all parts and fold

Part 1

- glue tabs 1, 2, 3, 4 and 5

Part 2:

- glue the tabs with number 6 to each other
- glue the tab with number 7 to number 7 on part 1

Part 3:

- glue the tabs with number 8 to each other
- glue the tabs with number 9 to each other (part 2)
- glue the tab with number 10 to number 10 on part 1

Part 4 to 11

- etc.

Part 12 and 13

- place part 1 to 11 on the lampbase
- glue the parts 12 and 13
